FOREST RESEARCH NOTES

U.S. DEPARTMENT OF AGRICULTURE
FOREST SERVICE
CALIFORNIA FOREST AND RANGE
EXPERIMENT STATION *

STEPHEN N. WYCKOFF, Director

No. 52.

October 19, 1949

ROOTS OF FOREST TREES

A selected list of references
compiled by

Duncan Dunning

* MAINTAINED AT BERKELEY, CALIFORNIA, IN COOPERATION WITH THE UNIVERSITY OF CALIFORNIA.

ROOTS OF FOREST TREES

A selected list of references^{1/}
compiled by
Duncan Dunning^{2/}
California Forest and Range Experiment Station^{3/}

Aaltonen, V. T.

On the space arrangement of trees and root competition. Jour. Forestry
24: 627-644. Oct. 1926.

Ueber die Ausbreitung und den Reichtum der Baumwurzeln in den Heidewäldern
Lapplands. Acta Forest. Fenn. 14: 1-55. 1920.

Ueber die natürliche Verjüngung der Heidewälder im Finnischen Lappland.
Inst. Forest. Fenniae Commun. 1: 1-319, 1-56. 1919. (In Finnish. German
summary pp. 1-56).

Ueber die räumliche Ordnung der Pflanzen auf dem Felde und im Walde.
Eine botanisch-bodenwissenschaftliche Studie. Acta Forest. Fenn. 25:
1-85. 1923.

Über die Selbstabscheidung und den Wuchsraum der Bäume in Naturbeständen.
Inst. Forest. Fenn. Commun. 9: 1-20. 1925. (In Finnish. German summary
pp. 18-20).

Adams, A. J. S.

Observations on root fusions in Monterey pine. Austral. Forestry 5:
78-80. Dec. 1940.

Adams, W. R., and Chapman, G. L.

Competition influence on the root systems of jack and Norway pines.
Vt. Agr. Expt. Sta. Bul. 472, 32 p. Burlington, 1941.

Adams, W. R.

Studies in tolerance of New England forest trees. XI. Influence of
soil temperature on germination and development of white pine seedlings.
Vt. Agr. Expt. Sta. Bul. 379, 17 p. Burlington, 1934.

^{1/} First issued 1928. Reissued 1946 and 1949.

^{2/} Grateful acknowledgement is made for assistance from Laura O. Baxter
and Anne Avakian, former librarians, California Forest and Range Experiment
Station; Sonia Wilderman Nielsen, librarian, Station WPA project; and
Nellie G. Larson, U.S.D.A. Library, San Francisco Branch.

^{3/} Maintained by the Forest Service, U. S. Department of Agriculture at
Berkeley, California, in cooperation with the University of California.

Addoms, Ruth M.

Entrance of water into suberized roots of trees. *Plant Physiol.* 21: 109-111. Jan. 1946.

Afanasyev, Mche.

Effect of indolebutyric acid on rooting of greenwood cuttings of some deciduous forest trees. *Jour. Forestry* 37: 37-41, Jan. 1939.

Albert, R.

Ungünstiger Einfluss einer zu grossen Stammzahl auf den Wasserhaushalt geringer Kiefernboeden. *Ztschr. f. Forst u. Jagdw.* 47: 241-248. Apr. 1915.

Aldaba, V. C.

On the growth of cocoanut roots. *Philippine Jour. Agr.* 3: 59-65. 1932.

Aldrich-Blake, R. N.

The plasticity of the root system of Corsican pine in early life. *Oxford Forestry Mem.* 12, 64 p. Oxford, Eng., 1930.

Recent research on the root systems of trees. *Forestry* 3: 66-70. Apr. 1929.

Allen, R. W.

Condition of root system of apple trees in the Hood River District. *Oreg. Agr. Expt. Sta. Hood River Branch Rpt.* (1914-1915); 20-24. 1915.

Allen, Hermann von

Beiträge zur vergleichenden Anatomie der Wurzeln, nebst Bemerkungen über Wurzelthyllen Heterorhizie, Lenticellen. (Diss. Göttingen 108 p. Hubert & Co. 1908) (verified in *Internat. Cat. Sci. Lit. Bot.* 8: 31. 1910)

Wurzelstudien. *Bot. Ztg.* 67: 175-199. 1909.

Anand, P.

Root system of plants of eroded areas in Hoshiapur Siwaliks. *Proc. Ind. Sci. Congr.* 28: paper no. 38. 1942. (*Biol. Abs.* 16: 18835. 1942)

Anderson, C. H., and Cheyney, E. G.

Root development in seedlings in relation to soil texture. *Jour. Forestry* 32: 32-34. Jan. 1934.

Anderson, Ernst

Om barrträdernas rotverksamhet. (On the root activity of conifers.) *Svenska Skogsvarvsför. Tidskr.* 43: 291-315. 1945. (*Abs. in Forestry Abs.* 7: 274. 1945)

Army, A. C., and Johnson, I. J.

The roots of flax plants. *Amer. Soc. Agron. Jour.* 20: 373-380. Apr. 1928.

Alex, W. W.

Lab. fly. of North Carolina pine. *N. C. Geol. & Econ. Survey Bul.* 24, 176 p. Raleigh. 1915. (Root system pp. 38-39)

Allen, J.

Response of shortleaf and litch pine to soil amendments and fertilizers in newly established nurseries in the central states. *U. S. Dept. Agr. Jour. Agr. Res.* 70: 405-426. June 15, 1945.

Baker, F. S.

Aspen in the central Rocky Mountain region. U. S. Dept. Agr. Bul. 1291.
42 p. Washington, 1925. Root system pp. 7-9.

Ballantyne, A. B.

Fruit tree root systems; spread and depth. Utah Agr. Expt. Sta. Bul.
143, 15 p. Logan, 1916.

Ballard, C. W.

Elements of vegetable histology. 2nd ed. rev. and enl. 289 p. New York,
Wiley, 1927.

Bannan, M. W.

Notes on the origin of adventitious roots in the native Ontario conifers.
Amer. Jour. Bot. 29: 593-598. Oct. 1942.

The root systems of northern Ontario conifers growing in sand. Amer.
Jour. Bot. 27: 108-114. Feb. 1940.

Variability in wood structure in roots of native Ontario conifers.
Torrey Bot. Club Bul. 68: 173-194. Mar. 1941.

Baranetzky, J.

Ueber die Ursachen, welche die Richtung der Aeste der Baum- und Straucharten
bedingen. Flora 89: 138-239. 1901.

Barber, C. A.

Dissection of cane roots in Hawaii. Internatl. Sugar Jour. 30: 634-640.
Dec. 1928.

Barker, B. T. P.

Root development in newly planted trees. Bristol Univ. Agr. and Hort.
Res. Sta. Ann. Rpt. 1920: 43-60.

Studies on root development. Bristol Univ., Agr. and Hort. Res. Sta.
Ann. Rpt. 1921: 9-20.

Bemis, M. E.

The relation of root growth to top growth. Amer. Fruit Grower Mag. 48:
11, 21. Mar. 1928.

Berg, Åke

Adventiv rotbildning hos *Abies sibirica*. Skogen 17: 401-403. Aug. 1930.

Bergman, H. F.

The relation of aeration to the growth and activity of roots and its
influence on the ecesis of plants in swamps. Ann. Bot. (London) 34:
13-33. Jan. 1920.

Bertrand, H. W. R.

A root growth experiment with *Hevea*. Trop. Agr. (Ceylon) 72: 317-322.
June 1929.

Biswell, H. H.

Effects of environment upon the root habits of certain deciduous forest trees. Bot. Gaz. 96: 676-708. June 1935.

Biswell, H. H., and Weaver, J. E.

Effect of frequent clipping on the development of roots and tops of grasses in prairie sod. Ecology 14: 368-390. Oct. 1933.

Blaser, R. E.

A rapid quantitative method of studying roots growing under field conditions. Amer. Soc. Agron. Jour. 29: 421-423. May 1937.

Bobilioff, W.

The growing together of the roots of the Hevea. (Trans. title). Arch. v. Rubbercult. Nederland, Indië 11(8): 347-353. 1927. (Abs. Expt. Sta. Rec. 58: 143. Feb. 1928).

Boerker, R. H.

Ecological investigation upon the germination and early growth of forest trees. Nebr. Univ., Univ. Studies 16(1-2): 1-89. 1916.

Böhme, Hermann

Beiträge zur Wurzelforschung. Pflanzenbau 4(4): 56-62. Aug. 15, 1927.

Beiträge zur Wurzelforschung. Pflanzenbau 4(5): 72-78. Sept. 1, 1927.

Bolz, Curt

Lassen sich bei Wurzeln Nutationsbewegungen feststellen und welcher Art sind sie? Bot. Arch. 19: 450-459. Sept. 1927. (English Abstract p. 457).

Bonner, J., and Koepfli, J. B.

The inhibition of root growth by auxins. Amer. Jour. Bot. 26: 557-566. July 1939.

Bottomley, W. B.

The root-nodules of Ceanothus americanus. Ann. Bot. (London) 29: 605-610. Oct. 1915.

Bouygues, H.

A propos de la nécessité de l'oxygène de l'air sur l'accroissement des racines poussant dans l'eau. Soc. Bot. de France Bul. 75: 469-472. Sept. 1928.

Bowers, F. A.

Distribution of roots in the soil. Pineapple Men's Conf. Proc. 6: 198-206. 1927.

Bowers, F. A. I.

The root system of pineapple plants. Hawaii. Pineapple Canners' Sta. Bul. 12, 35 p., 1929. (Abs. in Expt. Sta. Rec. 62: 437. Apr. 1930).

Bowman, F. T.

Root types among apple seedlings. Agr. Gaz. N. S. Wales 52: 426-428; 475-477. 1941.

Boynton, Damon

Soil atmosphere and the production of new rootlets by apple tree root systems. Amer. Soc. Hort. Sci. Proc. 37(1939): 19-26. 1939. (Abs. Expt. Sta. Rec. 84: 48. Jan. 1941).

Briggs, A. H.

Report of planting experiment to determine the effect of root exposure on deciduous planting stock. Jour. Forestry 37: 939-943. Dec. 1939.

Broyer, T. C., and Overstreet, R.

Cation exchange in plant roots in relation to metabolic factors. Jour. Bot. 27: 425-430. June 1940.

Brueckner, Eduard

Root formation of various forest species in soils of the east Thuringian variegated sandstone territory. Tr. from the German by A. H. Krappe. U. S. Forest Serv. Div. Silvics Tr. 104, 13 p., processed. Washington, 1934. (Tr. from: Tharandter Forstl. Jahrb. 83: 150-170. 1932).

Bruner, W. E.

Preliminary observations on the depth, spread, and characteristics of the root systems of our common garden plants. Okla. Acad. Sci. Proc. 6: 39-49. 1926.

Bunger, M. T., and Thomson, H. J.

Root development as a factor in the success or failure of windbreak trees in the southern high plains. Jour. Forestry 36: 790-803. Aug. 1938.

Burbidge, N. T.

Root development in Pinus pinaster and the seasonal variations of its mycorrhizae. Austral. Forestry 1: 33-40. June 1936.

Burger, Hans

Bodenveränderung und Wurzelbildung. Schweiz. Ztschr. f. Forstw. 81: 67-71. Feb. 1930.

Burns, G. P.

Studies in tolerance of New England forest trees. I. Development of white pine seedlings in nursery beds. Vt. Agr. Expt. Sta. Bul. 178, pp. 125-144. Burlington, 1914.

Burns, G. P., and Hooper, F. P.

Studies in tolerance of New England forest trees. II. Relation of shade to evaporation and transpiration in nursery beds. Vt. Agr. Expt. Sta. Bul. 181, pp. 231-263. Burlington, 1914.

Burns, G. P.

Studies in tolerance of New England forest trees. XIII. The effect of root development on height and diameter growth. Vt. Agr. Expt. Sta. Bul. 422, 29 p. Burlington, 1937.

Büsgen, Moritz

Einiges über Gestalt und Wachstumsweise der Baumwurzeln. Allg. Forst. u. Jagd. Ztg. 77: 273-278; 305-309. Aug.-Sept. 1901.

Büsgen, Moritz, and Muench, E.

Structure and life of forest trees. 3d ed. rev. and enl. Translated by Thomas Thompson. New York, Wiley, 1929. Roots p. 269-300.

Büsgen, Moritz

Studien über die Wurzelsysteme einiger dicotyler Holzpflanzen. Flora (Genay) 95: 58-94. 1905.

Buckley, D. J.

Regeneration of the root systems of pin oak (*Quercus palustris*) and American elm (*Ulmus americana*) following transplanting in the fall and spring. (With discussion.) 22nd Nat'l. Shade Tree Conf. Proc. 46-56. 1946. Also Ohio State Univ. Abstracts of doctoral dissertations No. 52 39-46. 1947.

Bushnell, J.

Exploratory tests of subsoil treatments inducing deeper rooting of potatoes on Wooster silt loam. Amer. Soc. Agron. Jour. 33: 823-828. Sept. 1941.

Campion, W. E.

The depth attained by roots. Austral. Forestry Jour. 9: 128. May 1926.

Cannon, W. A.

The evaluation of the soil temperature factor in root growth. Plant World 21: 64-67. Mar. 1918.

Oxygen relations in hydrophytes. Science n. s. 91: 43-44. Jan. 12, 1940.

Physiological features of roots, with especial reference to the relation of roots to the aeration of the soil. Carnegie Inst. Wash. Pub. 368, 163 p. Washington, 1925.

Root-growth of *Prosopis velutina* and *Opuntia versicolor* under conditions of a small oxygen-supply in the soil. Carnegie Inst. Wash. Yearbook 1917 16: 82-83. 1918.

The root habits of desert plants. Carnegie Inst. Wash. Pub. 131, 96 p. Washington, 1911.

Some features of the root-systems of desert plants. Pop. Sci. Monthly 8: 90-99. July 1912.

Some relations between root characters, ground water, and species distribution. Science, n. s. 37: 420-423. Mar. 14, 1913.

Studies on roots. On the root system of *Sequoia sempervirens*. Carnegie Inst. Wash. Yearbook (1925-1926) 25: 320-325. 1926.

Chadwick, L. C., Bushey, D., and Fletcher, G.

Root distribution studies. Amer. Soc. Hort. Sci. Proc. (1937) 35:
734-738. 1938.

Cheyney, E. G.

The effect of position of roots upon the growth of planted trees.
Jour. Forestry 25: 1013-1015. Dec. 1927.

The root system of the hazel. Jour. Forestry 26: 1046-1047. Dec.
1928.

The roots of a jack pine tree. Jour. Forestry 30: 929-932. Dec. 1932.

A study of roots in a square yard of jack pine forest. Jour. Forestry
27: 546-549. May 1929.

Clark, E. R.

Root penetration of nine mature fruit trees on heavy silt loam soils.
Okla. Panhandle Agr. & Mech. Col. Panhandle Bul. 55, pp. 13-16.
Goodwell, 1934.

Clements, F. W.

Aeration and air-content; the role of oxygen in root activity. Carnegie
Inst. Wash. Pub. 315, 183 p. Washington, 1921.

Coile, T. S.

Distribution of forest tree roots in North Carolina Piedmont soils.
Jour. Forestry 35: 247-257. Mar. 1937.

Collings, G. H., and Warner, J. D.

Root development of cotton on Cecil sandy loam during 1926. Amer.
Soc. Agron. Jour. 19: 839-842. Sept. 1927.

Conrad, J. P., and Veihmeyer, F. J.

Root development and soil moisture. Hilgardia 4: 113-134. May 1929.

Conway, V. M.

Aeration and plant growth in wet soils. Bot. Review 6: 149-163. Apr.
1940.

Cook, C. W.

A study of the roots of *Bromus inermis* in relation to drought resistance.
Ecology 24: 169-182. Apr. 1943.

Cooper, W. C.

Hormones in relation to root formation on stem cuttings. Plant Physiol.
10: 789-794. Oct. 1935.

Cooper, W. S.

The broad-sclerophyll vegetation of California; an ecological study of
the chaparral and its related communities. Carnegie Inst. Wash. Pub.
319, 124 p. Washington, 1922. Roots, pp. 89-92.

Cormack, R. G. H.

Investigations on the development of root hairs. *New Phytol.* 34: 30-54.
Feb. 21, 1935.

Costantin, J., and Magrou, Joseph

Contribution à l'étude des racines des plantes alpines et de leurs mychorhizes. *Paris Acad. des Sci. Compt. Rend.* 182: 26-29. 1926.

Costantin, J.

Étude comparée des tiges aériennes et souterraines des Dicotylédones.
Ann. des Sci. Nat. Bot. (6^e Ser.) 16: 5-176. 1883.

Recherches sur l'influence qu'exerce le milieu sur la structure des racines. *Ann. des Sci. Nat. Bot.* (7^e Ser.) 1: 135-178. 1885.

Coster, Ch.

Wortelstudien in de tropen. 4. Wortelconcurrentie. *Tectona* 26: 450-497. June 1933. (In Dutch. German summary, pp. 492-497).

Cranefield, F.

Duration of root growth. *Wis. Agr. Expt. Sta. Rpt.* 17: 306-308. 1900.

Crider, F. J.

Root studies of citrus trees with practical applications. *Citrus Leaves* 7: 1-3, 27-30. Apr. 1927.

Winter root growth of plants. *Science*, n. s. 68: 403-404. Oct. 26, 1928.

Crossley, D. I.

The effect of a compact subsoil horizon on root penetration. *Jour. Forestry* 38: 794-796. Oct. 1940.

Cullinan, F. P.

Root development of the apple as affected by cultural practices. *Amer. Soc. Hort. Sci. Proc.* (1921) 18: 197-203. 1922.

Cummings, W. H.

Exposure of roots of shortleaf pine stock. *Jour. Forestry* 40: 490-492. June 1942.

Curtis, O. F.

Stimulation of root growth in cuttings by treatment with chemical compounds. N. Y. (Cornell) *Agr. Expt. Sta. Mem.* 14, pp. 71-138. Ithaca, 1918.

Czaja, A. T.

Wurzelwachstum, Wuchsstoff und die Theorie der Wuchsstoffwirkung. *Deut. Bot. Gesell. Ber.* 53: 221-245. March 28, 1935.

Czapek, Friedrich

Untersuchungen über Geotropismus. *Jahrb. f. Wiss. Bot.* 27: 243-339. 1895.

Dandeno, L. B.

Mutual interactions of plant roots. *Mich. Acad. Sci. Ann. Rpt.* 11: 24-25. 1909.

Davis, S. H.

Root distribution studies. Penn. Univ. Morris Arboretum Bul. 4: 27-28.
Nov. 1942.

Day, L. H.

Is the increased rooting of wounded cuttings sometimes due to water absorption? Amer. Soc. Hort. Proc. (1932) 29: 350-351. 1933.

Day, M. W.

A comparison of the root systems of jack pine and tamarack. Jour. Forestry 43: 41-42. Jan. 1945.

The root system of red pine saplings. Jour. Forestry 39: 468-472.
May 1941.

The root system of the aspen. Amer. Midland Nat. 32: 502-509. Sept 1944.

Day, W. R.

The penetration of conifer roots by *Fomes annosus*. Quart. Jour. Forestry 42: 99-101. 1948.

Delisle, A. L.

Histological and anatomical changes induced by indoleacetic acid in rooting cuttings of *Pinus strobus* L. Va. Jour. Sci. 3: 118-124.
May 1942.

Deogun, P. N.

Relation between roots and method of irrigation in dry tracts of the Punjab. Indian Forester 69: 97-106. Mar. 1943.

Deuber, C. G., and Farrar, J. L.

Rooting Norway spruce cuttings. Amer. Nurseryman 70: 3-5. Aug. 15, 1939.

Diebold, C. H.

Root distribution and penetration of soil layers. Jour. Forestry 31: 481-482. Apr. 1933.

Doak, K. D.

Mycorrhizae and their relation to shade trees. Natl. Shade Tree Conf. Proc. 1934: 99-105.

Draheim, Walter

Beiträge zur Kenntnis des Wurzelwerks von iridaceen, Amaryllidaceen und Liliaceen. Bot. Arch. 23: 385-440. Jan. 1929.

Duncan, W. H.

A study of root development in three soil types in the Duke Forest. Ecol. Monog. 11: 141-164. Apr. 1941.

Duncan, W. H.

Root systems of woody plants of old fields of Indiana. Ecology 16: 554-567. Oct. 1935.

Eaton, F. M.

Water uptake and root growth as influenced by inequalities in the concentration of the substrate. Plant Physiol. 16: 545-564. July 1941.

Ehrlich, John

A preliminary study of root diseases in western white pine. U. S. Forest Serv. North. Rocky Mountain Forest and Range Expt. Sta. Paper 1, 10 p. Processed. Missoula, 1939.

Engler, A.

Perioden in Wurzelwachstum. Prometheus 16: 623-624. 1905.

Untersuchungen über das Wurzelwachstum der Holzarten. Schweiz. Centralanst. f. Forstl. Versuchsw. Mitt. 7. 274-317. 1903. (Abs. in Forestry Quart. 2: 34-35. 1903).

Esau, Katherine

Vascular differentiation in the pear root. Hilgardia 15: 299-324. Apr. 1943.

Esper, H. C.

The effect of time of taking, medium, and bottom heat on the rooting of evergreen cuttings. Ohio Agr. Expt. Sta. Bimonthly Bul. 154, p. 9-17. Wooster, 1932.

Evans, H.

The root-system of the sugar-cane. I. Methods. Empire Jour. Expt. Agr. 3: 351-362. Oct. 1935.

Fabricius, L.

Der einfluss des Wurzelwettbewerbs des schirmstandes auf die entwicklung des Jungwuchses. Forstwiss. Centbl. 49: 329-345. May 15, 1927.

Neuere Versuchsergebnisse zur Frage des Wurzelwettbewerbs und der Schattenfestigkeit der Holzarten. Internat. Cong. of Forestry Expt. Sta., Stockholm, 1929, Proc.: 370-380. 1930.

New experiments to determine the influence of root competition and light of the shelterwood upon regeneration. Tr. from the German by A. H. Krappe. 30 p. Typewritten. Washington, U. S. Forest Service, 1935. (Tr. from Forstwiss. Centbl. 73: 477-506. 1929).

Farr, C. H.

The formation of root hairs in water. Iowa Acad. Sci. Proc. 32: 157-165. 1925.

Farr, C. H.

Root hairs and growth. *Quart. Rev. Biol.* 3: 343-376. Sept. 1928.

Studies on the growth of root hairs in solutions. Parts I-VI.
Amer. Jour. Bot. 14: 446-456; 497-515; 553-564. Oct.-Dec. 1927.
15: 6-31; 103-113; 171-178. Jan-Mar. 1928. Part V is: Root-hair elongation as an index of root development.

Studies on the growth of root hairs in solutions. Parts VII-VIII.
Torrey Bot. Club Bul. 55: 223-246, 529-553. May, Dec. 1928.

Studies on the growth of root hairs in solutions. IX. The pH-molar-rate relation for collards in calcium nitrate. *Mo. Bot. Gard. Ann.* 16: 53-82. 1929.

Farrar, J. L.

Rooting of Norway spruce cuttings. *Forestry Chron.* 15: 152-163. Sept. 1939.

Farris, N. F.

Root habits of certain crop plants as observed in the humid soils of New Jersey. *Soil Sci.* 38: 87-111. Aug. 1934.

Ferrant, N. A., Jr., and Sprague, H. B.

Effect of treating different horizons of sassafras loam on root development of red clover. *Soil Sci.* 50: 141-161. Aug. 1940.

Flander, A.

Beeinflussung der Wurzelbildung und Wuchsenenergie der Fichtl durch Zwischenbau von perennierender Lupine *Allg. Forst u. Jagd Ztg.* 88: 367-370. Nov. 1912.

Flury, Philipp.

Root grafting. *Schweiz. Ztschr. f. Forstw.* 3-4: 37-41. 1919.
(Reviewed in *Jour. Forestry* 17: 872-873. Nov. 1919).

Forbes, R. D.

The roots of trees. *Amer. Forests and Forest Life* 31: 201-204, 234, 236. April 1925.

Fowells, H. A.

The effect of certain growth substances on root-pruned ponderosa pine seedlings. *Jour. Forestry* 41: 685-686. Sept. 1943.

Freidenfelt, Teodor

Studien ueber die Wurzeln krautiger Pflanzen. I. Ueber die Formbildung der Wurzel vom biologischen Gesichtspunkte. *Flora* 91: 115-187. 1902

Freidenfelt, Teodor.

Studien ueber die Wurzeln krautiger Pflanzen. II. Der anatomische Bau der Wurzel in seinem Zusammenhange mit dem Wassergehalt des Bodens. Biblioth. Bot. 12(61): 1-118. 1904. Also published as a separate. 118 p. Stuttgart, Naegele, 1904.

Fricke-Bentnitz, K.

"Licht- und Schattenholzarten," ein wissenschaftlich nicht begrundetes dogma. Centbl. f. das Gesam. Forstw. 30(8&9): 315-325. 1904.

Gail, F. W., and Long, E. M.

A study of site, root development, and transpiration in relation to the distribution of Pinus contorta. Ecology 16: 88-100. Jan. 1935.
